

# How to Make a Hammock

by **jesseng**

## Introduction

With a bed sheet and a few tools, you can make a homemade hammock.

## Instructions

**Difficulty:** Moderately Easy

### Things You'll Need

- Full-size bed sheet
- 2 10' lengths of rope
- Iron
- Scissors
- Sewing Machine and Heavy Duty Thread
- Pins

### Steps

#### 1 Step One

1. Fold the sheet in half length-wise with the right sides out and iron flat.

[Click to enlarge](#)

#### 2 Step Two

Topstitch together, sewing all four sides about 1/4" from edges. You now have a long narrow piece.

#### 3 Step Three

Fold the top edge over 2" and stitch in place with 1/4" seam. Do the same along the bottom edge, making sure you folded both onto the same side of the fabric.

#### 4 Step Four

Fold the bottom edge over one more time and stitch in place. Do the same with the top edge.

#### 5 Step Five

Thread one length of rope through each end and hang it up.
