

Changing the way  
we think about mobility

yuba - Mundo

unique cargo capacity and superior handling

**carries**

- passengers
- gear
- groceries
- kids
- tools
- computers
- water jugs
- gasoline
- gold
- stuff
- and more...

yuba introduces the **Mundo** Utility Bicycle a new category of bicycle, offering an innovative design, unseen cargo capacity, practicability and affordable mobility. The Mundo is one of the first bikes that can **easily carry** two or three passengers, boxes of produce to the market, water jugs, gas bottles, lumber, sport equipment; this on **uneven terrain**, singletrack trails or paved city streets... A bike that can be used everyday, to take the kids to school, to go shopping, to commute, to get to work, to use for your business needs. Ride the Mundo to carry groceries, bags, tools, sport equipment, kids.

The Mundo will take you and your things emission free wherever like.

Benefits

- It can be used to go to stores without worrying about how much can be carried
- It can be ridden to carry tools or sport equipment without having to use a car
- >> Families can access communication hubs, shops and other commodities without relying on expensive motorized transportation
- The financial cost of the Mundo is reasonable, offering mobility at a reduced cost
- It contributes to clean mobility for millions of people worldwide, leading to the conservation of resources and protection of the environment
